First European Photodermatology Course

18-19 May 2012

San Gallicano Dermatological Institute IRCCS, Rome

Course Director: Giovanni Leone MD
Head, Photodermatology Unit
San Gallicano Dermatological Institute, Rome, ITALY

Course Objectives:

The course is open to all dermatologists wishing to acquire a basic knowledge of photodermatology, including of phototherapy. All essential aspects of the subject will be discussed, with sessions on basic photobiology and photophysics, normal human skin responses to ultraviolet irradiation, the photodermatoses and their investigation, sunbed effects, vitamin D matters, photoprotection and phototherapy. A clinical session demonstrating photodermatology patients and a visit to the San Gallicano photodermatology investigation unit will also be included.

Course Details:

The course will run from 08.30 on Friday, May 18th to 13.00 on Saturday, May 19th, 2012

Course numbers will be limited to 60 participants, with 25 places reserved for attendees from the organizing country, Italy

Participants will be admitted on a first come first served basis

Registration fee: €500 including VAT (includes handouts, coffee breaks and course dinner on the Friday evening)
